SCOUTS WILL CAMP

The Boy Scout camp this year is to be held near Mirror. By kind permission of the Transcontinental Townsite Co., the loan of Cook's old house at Mirror Beach, Buffalo Lake, some five miles from Mirror, has been granted, which affords every possibility of conducting a most successful camp, being ideally located.

The camp starts on Monday, June 30th, and will break up on Saturday, July 13th. It is hoped that scouts from every direction will attend the camp, and it is more than probable that twenty Calgary scouts will be up here; six of the Mirror boy scouts at any rate, and probably eight or ten of them, will be at camp, the aim being to afford a very profitable as

well as a pleasant two weeks. There will be a special day for visitors, not fixed as yet, but due notice will be seen anon in these columns.

Scouts from Alix, Clive, Toos, Bashaw, Ferintosh and elsewhere will be in camp, which will be in charge of Rev. G. Creighton.

PLANS FOR SCHOOL

Tenders are being called for by the Mirror School Board for the erection of a two-story four-room brick school house on block 56, Mirror. Plans and specifications are now in the hands of the Board, and call for a building seventy-nine feet frontage, and twenty-seven feet deep. It will be finished with pressed brick.

The basement will consist of a separate play-room for the girls and boys; store room and fuel and furnace room. There will be two class rooms on the first floor, each 30 by 25 feet with a six foot corridor, besides cloak rooms. The second floor is on the same plan. All material used will be of the best of the various kinds and the total cost will be in the neighborhood of \$15,000.

Marvin & Hanes, of Edmonton, are the architects.

Miss Delta Simpson is at present visiting with friends in Calgary, Alta.

MERCHANTS REJOICE

Yesterday (Thursday) the G. T. P. pay car was in town and the railroad employees received their monthly stipends. It is estimated that about \$8,000 to \$10,000 is paid out at Mirror about the 20th of each month, by the railroad company. The circulation of at least a part of this money means considerable to the town and has a tendency to make the tradespeople rejoice. With further development on the Tofteld-Calgary line the pay-roll should show a large increase during the summer.

VISITOR FROM ENG.

A. Wyndham, a writer for the London, (Eng.) Daily "Mirror," was a visitor in town for several days this week. He is on an extended visit through out the West and will visit many of the important points in the interests of The "Mirror." Mr. Wyndham has only lately returned from the war in Europe where he acted as war correspondent.

"I came here," he said, "expecting to find about three buildings on the townsite, but the flourishing appearance of everything is an agreeable surprise to me."

A number of pictures of scenes in and around Mirror were taken and will be reproduced in the Daily "Mirror," the name of the paper from which the town of Mirror derives its name.

LARGE ATTENDANCE

Regina, Sask., June 16. When the Made-in-Canada exhibition train left here this morning for Saskatoon, Prince Albert, Battleford, Edmonton and other intermediate points, the total attendance so far had been over 100,000. The train has 50 stops yet to make in the 20 days remaining before it arrives at the end of the schedule for the present year. At every point along the route the officials have had as many people as they could well handle, and from every standpoint the tour has been a success. Western Canadians generally showing continuous interest in the products of the Canadian workmen as shown on the train. A feature of the night stops is the moving picture exhibition consisting of reels depicting the all-round development of Canada.

The train will be at Mirror on Tuesday, June 24th, from 4.30 to 7 p. m.

The Imperial Lumber Co. are enlarging their sheds to provide extra room for new shipments of lumber received.

A special rate of a fare and a third for the round trip is advertised by the G. T. P. for Dominion Day. Tickets are good from June 28th to July 4.

Arrangements have been completed by the Yeoman Lodge for the entering at the grounds during the 1st of July celebration at Mirror. Wm. Dennis will erect a booth and will also serve regular meals at noon and supper time, besides serving lunches during the day. A change of crews has been made on the passenger train running between Mirror and

Edmonton, and "Bill" Walker, conductor, and "Dumny" Evans, brakeman, have been changed to the main line of the G. T. P. Both men have been on this run for a long time, and were very popular all along the line. They are running on the new train known as the prairie express, which has just been put into operation. Jack Thorne, formerly conductor on the mixed, has been promoted to the same position on the passenger train.

The time table on this branch of the G. T. P. has been changed, the passenger now leaving here at 7.20 a. m. and arriving here at 10.15 p. m.

H. W. Higgins has been appointed caretaker of the boat house and boats belonging to the Mirror Boat Club, at a salary of \$30 per month. His duties commence July 1st. M. Mecklenburg, A. M. the only university graduate Sight specialist in Alberta, 315 Jasper E. Phone 6225 Edmonton, visits Mirror semi-monthly.

NOTICE

Owing to the fact that we do not receive enough cash to successfully carry on our business, from and after July 1st will do a strictly cash business. We do not think this will be creating any material hardship on our customers, will facilitate matters very much for us, and we will be able to give better service.

MIRROR, ALTA., JUNE 20, 1913

Canada's Needs

(Canadian Forestry Association)

Canada's forest area is about 800,000,000 acres.

Canada possesses some six hundred billion board feet of merchantable timber, worth perhaps ten billion dollars.

Canadians are cutting off this timber at the rate of about 100 board feet per acre or eight billion board feet a year.

The fire loss is estimated to be 550 board feet per acre per annum.

We are allowing from fifty million to two hundred million dollars worth of this timber to burn up every year.

Worse than that we are burning young growth forest litter and soil fertility on hundreds of thousands of acres. That means no timber in the future for our children and children's children. Forest fires continued make deserts.

With the trees and young growth go the roots and soil cover, with their undoubted powers of holding water and soil together. Floods come from districts where the trees have been removed.

Fifty per cent. of Canada is capable of growing tree crops and nothing else.

Only a fraction of this absolute forest area is growing trees as it might. The rest is comparatively unproductive.

We cannot live without wood. Everything from the house we live in to the books we read is made of the product of the forest. We must have it.

To keep us in lumber, pulp, and equable water supply, fish and game, we must have trees.

On the prairie, shelter belts and woodlots are protecting crops, stock and houses from the extremes of climate, and are providing the farmers with fence posts and stringers.

The Dominion Government has supplied twenty-five million seedlings to settlers.

Millions are being sent out annually by nursery companies.

"The experience of tree planters and foresters indicates that there will be a demand for tens of millions more."

We must have trees in the forest, on the prairies, on sandy lands, in towns and cities.

It takes years to grow trees—not hours or days.

If we want our trees protected we must care for them

now.

All Canada's modern development—Confederation, the great railways, the growth of the west, most great machines have come in the last fifty years.

The seedlings of that day are scarcely more than tie timber now.

Fifty years is a very short time in the life of a forest. Most of the timber being cut in British Columbia today is over 200 years old—some of it is over 800 years old.

There is a crisis coming when the forests, which for a century men have thought "inexhaustible" are going to be greatly depleted.

A teacher had been telling her class of boys that recently worms had become so numerous that they destroyed the crops, and it was necessary to import English sparrows to exterminate them. The sparrows multiplied very fast and were gradually driving away our native birds. Johnny was apparently inattentive, and the teacher thinking to catch him napping said: "Johnny, which is worst, to have worms or sparrows?" Johnny hesitated a moment and then replied: "Please, I never had the sparrows."

Twenty-four hundred miles of telephone wire will be strung by the department of telephones on rural lines this year, in addition to a large amount of long distance line construction and new exchange work in the growing towns and cities of this province. Over \$2,000,000 will be expended by the government. At the beginning of the year there were in wire miles 9,071 miles of rural lines and 6,889 miles of long distance telephone in Alberta.

Alix: Six carloads of telephone poles were unloaded here last week and the construction gang will arrive in a few days to commence building south.

Holden: Rev. R. H. Brett, who has just returned from the conference held at Medicine Hat, has been appointed to the charge at Acme.

Tofield: J. C. Richards has during the past week, made extensive improvements both in his bake shop and store.

Tofield: The new Cottage School planned by the town school Board to provide accommodation for the large attendance of pupils which long had overtaxed the present building and which necessitated the renting of a building on 3rd Street north as a classroom, is now under course of construction. The superstructure will be of frame, and it is estimated that complete with furnace for hot air heating the building will cost in the neighborhood of \$1,800.

LAMERTON

Mr. and Mrs. J. R. Brackney and several young folks in the neighborhood spent an enjoyable day at Mr. and Mrs. Phelps, Sunday.

Mrs. Bergner, Misses Esther and Ruth spent Sunday with Mr. and Mrs. J. Wright.

A. M. Pasture is working for Joe Astel.

Mr. Kohler, Joe Astel, Mr. and Mrs. Geo. Neis, Mrs. C. Simpson, Miss Hyle and Mrs. J. Cairns were visitors at Earl DeLong's on Sunday.

Mirror.**WHY I BUY AT HOME**

In several of the larger towns of the prairie provinces a local Retail Merchants' Association has been formed, and these associations have taken up a buy-at-home propaganda seeking to do a stroke for themselves, and for local manufacturers against the competition of outside concerns. The association in a town not far from here has issued a list of reasons "Why I buy at home," which are right to the point and applicable to any city. Here is the list:

Because my interests are here.
Because the community that is good enough to live in is good enough to buy in.

Because I live in transacting business with my friends.
Because I want to see the goods.

Because I want to get what I buy when I pay for it.
Because my home dealer carries me when I run short.

Because every dollar I spend at home stays at home and works for the welfare of the town.

Because the man I buy from pays his part of the local taxes.
Because the man I buy from gives value received always.

Because the man I buy from helps support my school, my church, my lodge, my home.
Because when ill luck, misfortune or bereavement comes, the man I buy from is here with a kindly greeting, his words of cheer and his pocket book if need be.
Here I live and here I buy.

FLOUR MILL PROSPECTS

The Mirror office of the Buffalo Lake Land and Investment Co. received an enquiry last week from a "Journalist," subscriber in New York City, regarding their subdivision east of Mirror. The Co. is also in communication with parties in Minnesota, who are seeking a site for a flour mill, and another party who contemplates establishing a cannery in Mirror. If favorable sites can be secured the Co. has reason to believe that the parties interested will be Mirror within the next thirty days.

Urging Mixed Farming

Mayor Nelson, Medicine Hat, in the course of an interview in Toronto said that the farmers of the west are just beginning to realize that wheat raising alone cannot compare with mixed farming when it comes to making money. Eggs and butter never go below 15c the dozen and pound in a large section of the west, and now threaten to reach the dollar mark. The cities of the west are now endeavoring to bring this point home to the western farmers, and an organized effort will be made to encourage mixed farming in preference to wheat raising. The main argument that is being used in this regard is the fact that bigger money and in shorter time can be made in this way than would be possible from the same effort in wheat.

What's the Use?
A man who saw how the farmers were cheated showed them the game and how they could beat it.
Some of them laughed and others looked grim.
But all asked, "What is there in it for him?"

At last he got sick of his foolish campaign.
Since no one would act there was no thing to gain.
Then the farmers all wakened and started to scoff.
"Just what we expected! They've bought him off!"
And the man who had tried to fight their fight,
To stop the cheating and get things right,
Laughed and said as he turned to his plow
"You can't help a farmer anyhow!"

BANNER RAILROAD YEAR

Millions Being Spent for Rolling Stock
—Prosperity for Steel Mills

"The enormous railway development of Canada, particularly in the West, is reflected in an article written by Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, for the Monetary Times.
"Notwithstanding the large amount of railway construction in Canada during the past year," says Sir Thomas, "there is very little indication that quite as much will be required during the coming year. This means a great deal for the country because, besides giving employment to many thousands of men in the making of the railways, it naturally stimulates manufacturing in the rail mills, iron and steel works, lumber mills and a large number of other establishments, and keeps the wheel of national prosperity spinning."
"Speaking for our own company, the rail requirements for the next year will approximate 250,000 tons, and these, with the requisite fastenings, will represent an expenditure of over \$5,000,000."

"During the past year in addition to keeping our own manufacturing works occupied to their capacity, we have taken all the cars and locomotives that we could have built in Canada and have also made large contracts with manufacturers in the United States. At the present time our outstanding orders for cars and locomotives, to be delivered before the end of 1913, aggregate \$10,000,000, and a very large proportion of this amount will be spent in Canada."

"That there are other works, to which reference was made in the annual report. The extension of our coaling track system East and West, the important terminal works at Montreal, Toronto, Winnipeg and Vancouver, and the large locomotive and car works at Ogdens, near Calgary, that will involve the employment of many men, and the use of a great deal of material."

"We fully recognize the transportation necessities and claims of the country, and it is our anxious desire to meet them in so far as the obligation rests with our company but our operations are frequently delayed by conditions that we cannot overcome, such as an unfavorable season and a shortage of men and material."

"My own feeling is, that, surviving the situation conservatively, the year 1913 will be replete with development, progress and prosperity for Canada."

MAPLE SUGAR INDUSTRY

Care in the Process of Manufacture
Necessary for Good Results.

From the time the earliest explorers discovered Indians making sugar from the maple tree until the present day the production of maple sugar has been an important industry in Canada, and the United States. Three countries are the only ones in which the industry flourishes. In a Farmers' Bulletin issued by the United States Government it is stated that maple sugar and maple syrup are not now produced in such quantities as formerly. "But," the Bulletin goes on to say, "within the last six or seven years there has been a renewed tendency towards the production of a better grade of maple products."

"Maple syrup or maple sugar prepared by the best methods is a light-colored, pleasant-tasting product. Contrary characteristics are the result of unsanitary methods and possibly sour sap in 99 cases out of a hundred, and were manufacturers to take greater care in their methods their results would show improvement. This better grade may not appeal to many people who have been accustomed to the dark-colored grades."

In relation to the present growth of the sugar maple the bulletin states:—"Within its wide range the sugar maple appears as a predominant tree only in the New England States, New York, Southern Canada, Northern and Western Pennsylvania, and in parts of Ohio, Indiana, Illinois, Michigan, Wisconsin and Minnesota. In the southern Appalachian it occurs in scattered bodies where climate conditions are similar to those of the North. In the extreme northern part of New York State and the adjacent district of Quebec the forest growth is often almost pure maple, and even considerably further south, where beech and birch become associate trees, the sugar maple holds its own as the dominant species. In Northern Pennsylvania, at an altitude of over 1,000 feet, the mixture is chiefly the same as it is in New York. In Ohio, Indiana, and Illinois a similar condition is found, but as the hilly country disappears the maple retreats to the richer and damper soils, leaving great areas to the oaks and chestnuts."

Canoe Cost Over Million.

It cost Canada \$1,204,614 to take the last census, according to an official report prepared by the auditor general.

OTHER MEATS IN
PROPORTION

* On and after June 20th, 1913, we have decided to conduct our business on a **STRICTLY CASH BASIS**. We hope our customers will co-operate with us, and thus do away with the Credit System, which is one of the greatest drawbacks in business today.

* In a business, such as we are conducting, where we pay Spot Cash for our goods and where the goods are perishable, it is imperative that we sell for Cash. In doing this we can guarantee **Better Service**, and can give our customers the **Best Quality of Meats at a Lower Price**. You are reaping the benefit. It means money saved to you and creates a better business relation all round.

STREET GOSSIP

A report of the T. B. M. excursion has been covered off of this week's issue, but will occupy space next week.

Quite a number of our townspeople carrying sacks of rice, congregated at the G. T. P. depot last Monday evening for the purpose of welcoming home a newly married couple, whom rumor intimated were married that day in Camrose. Although there was no truth in the report the "chippy" couple were showered with rice by the waiting throng. The 'barless' creatures!

There was no meeting of the Board of Trade last Tuesday evening: reason—a quorum not present. It is very strange that the citizens do not take a livelier interest in this organization, as it is endeavoring to do everything in its power to further the best interests of the town. As it is, some of the members are very irregular in their attendance, and it is absolutely necessary, if the Board is going to be of any benefit that each and every member attend regularly.

In this rapidly growing West where there are so many centres of industry opening up and where every town with a wide-awake and progressive aggregation of business men are pulling for their respective towns, it is necessary, if we are going to bid for any of the many industries seeking locations in the West, that we keep ourselves in touch with intending settlers. This is one of the objects of a Board of Trade, and it requires the co-operation of every citizen if we are to make our town head of, outside of a small circle of friends.

It is not a money-making concern, the officers giving their services without recompense of any kind. There must be something behind it to make it go, and that is the support of the citizens which it is trying to bring.

The Board of Trade is doing everything within its power to advertise Mirror and the resources of the surrounding

country, and to induce settlers to come in, thereby benefiting everyone in and around our town.

Don't knock the Board of Trade but attend the meetings and lend your assistance.

South Buffalo Lake

W. Meek and Miss Smith, of Alix, also Mr. and Miss Baring and Miss Wheatland, of Erskine, were visitors at Lakeside Ranch, the home of J. H. Sorum, on the 8th inst.

A number of S. H. Lake residents went to view the ball game between Alix and Mirror in the former town, expecting to see the Alix 'invincibles' victorious. The result, 7 to 1 in favor of the Mirrorites must have convinced the most skeptical the new burg needs watching in more ways than one if Alix intends to hold her own in the future. Those Mirrorites can hustle in any time apparently.

C. E. and Mrs. Pemberton visited M. O. Sorum's home on the 15th. M. O. Sorum and Miss McKirdy were also visitors there the same day.

Everybody you meet now has a smile on their face as broad as the Lake; reason—the longed-for rain has reached us at last and plenty of it. Everything is growing while you sleep, fast enough to satisfy the most exacting farmer.

A few friends gathered at the home of Mrs. O. J. Sorum, on Saturday the 14th inst., to extend their good wishes for many pleasant years to Grandma Sorum. Though she has passed the age the Good Book allotted to man, and as the same Book placed no limit to the age a lady might attain, her many friends all hope to keep her here many years yet, as she keeps hale and hearty as ever.

Harry Fell and his stump pulling machine will be busy next week removing poplars, etc. from the jaws of the earth, on the farm of W. Jaack. Trees removed by this method while you wait.

MIRROR

JUNE 24TH, from 4.30 p.m. to 7 p.m.

LOCAL NEWS

W. R. Shanks, manager of the Union Bank, Bashaw, was in town last Friday morning.

The service in St. Monica's church, Mirror, will be at 3.30 o'clock next Sunday afternoon, June 22nd.

Mr. and Mrs. A. G. Holland have taken up their residence in the house of E. H. Hickman Carroll avenue north. They moved their household goods up from Alix last week.

An abundance of rain has fallen during the past week and farmers who were waiting rain would like to see a "cessation of the down-pours. There has not been enough rain yet, however to do any damage, and the crops are in a 1 condition.

Mr. and Mrs. Louie Olsen, Mrs. Jno. Herniman, Miss Blanche A. Barton and Hugh Stevenson attended the Yankee Robinson show at Stettler on Wednesday of this week.

Roy Lanning has returned to Mirror after an absence of several months.

The comfortable new home being erected by Ed. Budewer, several miles north west of here will be finished this week. We presume that wedding bells will soon be ringing.

The completion of the brick bake oven being erected by Wm. Dennis has been delayed owing to the collapse of the arch last Monday afternoon June 16th. The laying of the brick had been finished and the workmen were burning out the false work when the whole top tumbled in. Faulty workmanship was the cause of the accident.

Mr. and Mrs. G. H. Bartley left last Monday morning for Portland, Oregon, where they will visit for a month or so with Mrs. Bartley's parents.

The Mirror Baseball team are playing a match in Erskine this (Friday) afternoon.

Cards have been received announcing the marriage of Edith Bell, daughter of Mr. and Mrs. C. T. Allen, to Mr.

Roy D. Nelson, both of Lidgerwood, N. D. on Thursday, June 12th, 1913. The bride is a sister of Mrs. J. Lackey, of Mirror, and both the contracting parties were visitors in Mirror a year or two ago. May their joys be many and sorrows few.

Miss Olive Wilson, of Stettler, had an operation performed on one of her toes, Saturday of last week and is now confined to the house. Miss Wilson is a sister to Mrs. Fred Dowse and was a former resident of Mirror.

Harold Stevenson made a mid-week trip to Mirror on Wednesday for groceries, the week's supply having run out. Oh, you Harold!

The public school closed for the summer holidays last Friday, the 13th. In the afternoon the scholars entertained Principal McGill at a small picnic, as a mark of appreciation.

J. T. Armstrong is relieving in the chief dispatcher's office at the G. T. P., taking the place of "Nick" Bartley, who is away on a holiday. Mr. Armstrong has been here before.

'MADE-IN-CANADA' TRAIN AT MIRROR

Ten cars loaded with the products of fifty-two Canadian factories, where over have a million workmen are employed will be thrown open to the public when the 'Made-in-Canada' train stops at the G. T. P. station, Mirror, on Tuesday, June 24th, from 4.30 to 7 p.m. Enormous crowds have passed through this huge "exhibition on wheels" in the past month as it passed on its 7,000 mile tour of the Western provinces.

Among the exhibits are 150 different kinds of boots and shoes; 115 varieties of hosiery; 34 of collars and shirts; colored cottons, carpets, stoves, rubber goods, musical instruments, spices, woolen goods, dairy products and fresh fruit from Ontario, and many others. Souvenirs will be given away by many of the firms.

The exhibition is well worth seeing and should not be missed by anyone.

On Tuesday, July 1st all stores in Mirror will be closed during the day. The business places will be open until a late hour, the night previous to the 1st.
